

Pasture and Soil Fertility Workshops

Commencing October 2016 – Upper Murrumbidgee Region

Producers, land owners and managers are invited to join us for a 3 session workshop that could provide participants with the information to help them make an informed decision about managing their paddocks for improved soil and pasture health.

Sessions will cover:

- ✓ **Soil Tests** – Soil testing your paddocks. What do your soil tests mean? What can you do to improve your soil fertility?
- ✓ **Pasture Health** - What's growing in your paddock? Pasture & weed composition, options for pasture improvement and weed control options.
- ✓ **Making Decisions** – based on your soil test results and paddock assessments, what plans can you make for your paddocks?

Participants will have the opportunity to undertake **2 free soil tests** on their own property during September. Additional soil tests will be available on a by one get one free basis.

Session One – Assessing your pasture	Monday 10 th October 2016
Session Two – Understanding your soil tests	Monday 31 st October 2016
Session Three – Making decisions	To be confirmed.

If you would like to be part of this workshop, please register your interest with South East LLS, Soho Street Office on (02) 6452 1455 or contact Jo Powells on 0429 785 986, jo.powells@lls.nsw.gov.au.

Please feel free to pass this information on to other landholders – Pasture and Soil Fertility workshops require participants from at least 12 properties to run.
