| Parking locations | Light Vegetation |
| Easiest MTB Trails | Thick Vegetation |
| More Difficult MTB Trails | Contour Lines (20 m interval) |
| Most Difficult MTB Trails | Chairlift Lines |
| Minor Road (Dirt) | Dam / Pond |
| Minor Road (Sealed) | No Bike Access Along this Trail |
| Main Road (Sealed) | Residential Areas / Structures |
| Walking Trail | Grassed Areas |
| Creek / River | Stream / Water way |

Thredbo Village Trails

The mountain bike trails at Thredbo Village are a mix of service roads for the resort, walking trails that have been modified and purpose built single track. There is a variety of terrain from beginner to advanced riders. The Thredbo Downhill is the longest in Australia and the B Line trail makes the mountain side open to a wider range of riders and skill levels. Thredbo also offers a unique village atmosphere and numerous bush walking options in the valley or up in the mountains.

Easiest Trails

These trails are mostly lower down in the valley and offer the entry level mountain biker an opportunity to get out and enjoy the scenery Thredbo Village offers. The Bobsled and Pipeline Paths are the easiest of these trails, while Easy Does It is a great introduction to singletrack. Ski In Ski Out is usually ridden down from Cut 44.

More Difficult Trails

These intermediate trails cover the widest variety of trails and environments across Thredbo. The singletrack trails are rocky in places and offer some great challenging climbs and fast descents. While the service trails offer some long climbing or descending depending on the direction the trail is ridden. The B Line Downhill Track makes the Thredbo Downhill accessible to most intermediate riders and has combined several older trail sections with a purpose built trail that flows across the ski trails.

Most Difficult Trails

The Thredbo Downhill Track has been the longest and one of the most demanding downhill courses in Australia for many years. It offers fast open sections, tight technical rocky drops, slow switchback corners, high speed jumps and berms from the top of the Kosciuszko Express down to the Valley Terminal. The Meadows Singletrack is a tight and rocky XC trail, flowing downhill through heavily wooded native forest and links into several intermediate trails. These trail can be wet and slippery in parts and much of the rock is moss covered.
