

Perisher - Mountain Bike Trails

Perisher Trails

Perisher allows mountain biking on its many service and access tracks across the valley. These trails are not mountain bike specific and therefore they are not graded. The tracks are used by Perisher for service operations of the various lift facilities and it is important that you use caution when riding these trails in case a vehicle is on the track. Many of these trails do not traverse and contour across the terrain, but instead climb and descend steep areas of the valley, which makes some of these tracks difficult to ride and require very good fitness. The tracks and roads nearer Perisher Valley are less challenging and easier to use, but have more vehicle traffic.

Map Legend

-  Parking locations
-  Minor Road (Dirt)
-  Minor Road (Sealed)
-  Main Road (Sealed)
-  Open Vegetation
-  Thick Vegetation
-  Contour Lines (20 m interval)
-  Chairlift Lines
-  Dam / Pond
-  Residential Areas / Structures
-  Stream / Water way
-  Creek / River
